

ABHISHEK KUMAR SHARMA

Kanpur, Uttar Pradesh | +91-8532955211 | abhisheksharma12891@gmail.com

LinkedIn: [linkedin.com/in/abhishek12891/](https://www.linkedin.com/in/abhishek12891/) | GitHub: <https://github.com/abhisheksharma12891> | Portfolio: <https://abhishekpst.netlify.app/>

PROFESSIONAL SUMMARY

Results-driven B.Tech Computer Science graduate (PSIT, 2026) with hands-on experience in full-stack web development, data analytics, and machine learning. Demonstrated ability to build and deploy production-grade applications - including a live NLP-powered sentiment analysis tool and a computer vision AI with 95% emotion detection accuracy. Backed by 6 months of React.js internship experience at a service-based startup and 4 months of on-site data analyst work. Actively seeking roles in Software Engineering, Full Stack Development, Data Analytics, or AI/ML Engineering.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL, C

Frontend Development: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS

Backend & APIs: Node.js, REST APIs

Databases: PostgreSQL, MySQL (familiar)

Data Science & ML: Pandas, NumPy, TensorFlow, OpenCV, DeepFace, TextBlob, Scikit-learn (familiar), Streamlit

Developer Tools: Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Postman, Netlify, Vercel

Productivity & Analytics: MS Excel (Dashboards, Pivot Tables, Data Cleaning), Power BI (familiar)

Core CS Concepts: DBMS, Operating Systems, OOP, Data Structures & Algorithms

WORK EXPERIENCE

Data Analyst Intern | Shubh Enterprises (LG Authorised Service Centre), Kannauj

Jan 2026 - Apr 2026

On-site | Tools: MS Excel, SQL

- Managed and analysed 4+ operational datasets (customer records, service requests, inventory, employee data) to support daily business decisions.
- Built Excel dashboards with pivot tables to track service KPIs, reducing manual reporting effort and improving data visibility for management.
- Conducted data cleaning, validation, and error detection across 1,000+ records to ensure high-quality, reliable business data.
- Identified trends in customer complaints and service request patterns, providing actionable insights to improve service quality.
- Collaborated cross-functionally with service and management teams to streamline data workflows and inventory tracking processes.

Frontend React.js Developer Intern | OptiFlow Technologies, Kanpur

Jun 2025 - Nov 2025

Remote/Hybrid | Stack: React.js, JavaScript, HTML5, CSS3, Bootstrap, Tailwind CSS, REST APIs

- Developed responsive, user-friendly web applications for multiple clients in an Agile startup environment, delivering projects within deadlines.
- Built and maintained reusable React.js component libraries to improve development efficiency and UI consistency across client projects.
- Integrated frontend interfaces with backend REST APIs to enable seamless data flow across customer-facing applications.
- Optimised website performance, cross-browser compatibility, and mobile responsiveness to enhance user engagement.
- Participated in client requirement gathering, UI/UX design discussions, and feature development sprints.

Freelance Web Developer | Payal Mobile & Computers, Etawah

2024

Delivered paid project - ₹5,000

- Designed and developed a business portfolio website for a local electronics retailer, enabling online presence and customer inquiry generation.

PROJECTS

YouTube Sentiment Analysis Dashboard | Python | Streamlit | NLP | YouTube Data API v3 | TextBlob

Live: yt-sentiment-app.streamlit.app

- Engineered a real-time NLP web application that extracts and analyses YouTube comment sentiment for any video URL using YouTube Data API v3.
- Implemented sentiment classification (Positive/Negative/Neutral) with TextBlob and visualised results through interactive bar charts and summary metrics.
- Deployed as a fully functional public web app on Streamlit Cloud, enabling content creators to gauge audience feedback without manual comment review.

Real-Time Face Emotion Detector & Music Recommender | Python | OpenCV | DeepFace | TensorFlow

GitHub: github.com/abhisheksharma12891/Face-Emotion-AI

- Built a computer vision application that detects 7 facial emotions in real time via webcam feed using DeepFace and TensorFlow, achieving 95% detection accuracy.

- Engineered an intelligent recommendation layer that maps live-detected emotion to curated music track suggestions, creating an adaptive user experience.
- Applied OpenCV for video stream capture and preprocessing; integrated deep learning models for robust multi-emotion classification.

SnapQR - QR Code Generator | HTML5 | CSS3 | JavaScript | Bootstrap | QRCode.js

Live: snap-qr.netlify.app

- Developed a fully responsive, browser-based QR code generator supporting real-time QR creation from any text or URL input.
- Implemented Canvas-to-PNG conversion for one-click QR code download, CSS animations for polished UX, and JavaScript event handling for instant generation.
- Deployed on Netlify with mobile-first responsive design using Bootstrap 4 and CSS media queries.

EDUCATION

B.Tech in Computer Science & Engineering Pranveer Singh Institute of Technology (PSIT), Kanpur CGPA: 7.0/10	2021 - 2026
Intermediate (Class XII) - Science Gyan Sthali Inter College, Bharthana U.P. Madhyamik Shiksha Parishad (UPMSP) 80%	2021
High School (Class X) Gyan Sthali Inter College, Bharthana U.P. Madhyamik Shiksha Parishad (UPMSP) 80%	2019

CERTIFICATIONS & TRAINING

- Data Analysis with Python - Cognitive Class (IBM Developer Skills Network) - Nov 2025
- Python 101 for Data Science - Cognitive Class (IBM Developer Skills Network) - Oct 2025
- HTML5 & CSS3, Python (OOPs) & DBMS (SQL) - Infosys Springboard - 2024
- CCC (Course on Computer Concepts) - NIELIT (National Institute of Electronics & IT) - Dec 2020
- MDCA (Master Diploma in Computer Applications) - Brain Server Computer & Vocational Institute - Jan 2021

LEADERSHIP, TEACHING & EXTRACURRICULAR ACTIVITIES

AI/ML Guest Lecturer CSJMU (Chhatrapati Shahu Ji Maharaj University), Kanpur Delivered a 4-hour masterclass on Artificial Intelligence, Machine Learning, Deep Learning, Generative AI, and Agentic AI to 50+ B.Ed. and M.Ed. students, organised by AcadLearn (digital learning platform).	Feb 2026
Academic Tutor & Mentor Self-Employed Mentoring Class 1-10 students in Mathematics and Science, consistently improving academic performance by breaking down complex concepts into accessible frameworks. Developed strong stakeholder communication and presentation skills through regular one-on-one and group teaching sessions.	2021 - Present
Club Manager Disha Club, PSIT Kanpur Managed event documentation and participation data analytics; led and coordinated a team of volunteers for college-level events.	2023 - 2024
Social Media Manager Prayas Club, PSIT Kanpur Managed digital awareness campaigns and analysed engagement metrics to boost online reach; coordinated volunteers for social impact drives.	2023 - 2024

WORKSHOPS & SEMINARS

- Expert Lecture: "Impact of Data Science & AI/ML on Industry Transformation" - PSIT Kanpur - May 2025
